

## **PCB-Relay**

### **812 PCB Power Relay**

This new 812 series is well known as “sugar cube relay”. The rating has been listed with 12A/250 VAC at +85°C and 10A/250 VAC at +105°C. The standard coil consumption is 0,36 W.

This PC-Board power relay is offered in either flux-tight or sealed version and is available with 1N/O or 1C/O contact. SONG CHUAN is producing the 812 type of relay with AgSnO as contact material. The 812 dimensions are 21,4x16,4x16,7 mm.

The 812 is UL, CUL and VDE certified. Its tracking resistance exceeds CTI250. In conformity with the SONG CHUAN environmental policy the 812 is in accordance with the RoHS requirements.

The mains applications for this new 812 are household electrical equipments, industrial control equipments, building automation.
