

Heavy Duty PCB Automotive Relay

905 Heavy Duty PCB Automotive Relay

With its small dimensions — 16.6 x 12.6 x 17mm (LxWxH) and its low weight 8.6g, the 905 series from SONG CHUAN represents the new generation of heavy duty PCB automotive relay.

The 905 has 1 NO or 1 CO contact form with either AgSnO or AgNi contact materials. It is rated up to 30A 14VDC and has a sensitive coil of 720mW.

The 905 is designed to be used in the following car applications: lamps, door lock, wiper, power window, power seat adjustment, defogger, motor fan etc.

In conformity with SONG CHUAN environmental policy the 905 complies with ELV-Directive 2000/53/EC and RoHS-Directive 2002/95/EC.

Legend:

The 905 series from SONG CHUAN represents the new generation of heavy duty PCB automotive relay.
