

AUTOMOTIVE RELAY

303 Automotive Relay

With its small dimensions 16x15x23,7 mm the 303 is a low profile micro ISO280. The 303 has one N/O contact with either AgSnO or AgNi contact material and is rated at 20A/14VDC.

With AgSnO contact material the 303 can switch ON an inrush current up to 70A.

The 303 is designed to be used in the following car applications: Door lock, head lamp, fuel pump, radiator fan, ABS, ...

In conformity with SONG CHUAN environment policy the 303 complies with ELV and RoHS European directives.
